

THE EVENING NEWS

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 7

ADA, OKLAHOMA, FRIDAY EVENING, AUG. 26, 1910

NUMBER 122

FIRE DANGER IS NOW PAST

BUT LATE REPORTS INDICATE FURTHER LOSS OF LIFE IN FLAMES.

\$20,000,000 IN DAMAGE

Danger Practically Over—Flames Have Passed Critical Stage. Hopeful Reports Coming In.

Spokane, Wash., Aug. 25.—If the stories of men who returned today from the St. Joe country of Idaho are to be believed, the loss of life along Big creek, a tributary of the St. Joe river, was appalling and the dead in Idaho alone will number more than 200, even if Ranger Joseph B. Halm and his fifteen men are safe.

All estimates of the financial loss place it at over twenty millions, mostly in timber.

Reported Casualties. Among reported casualties are the following:

Two lumbermen say they saw thirty Italian fire fighters burned to death on Big creek.

A party of Austrian laborers report the death of seventeen of their comrades.

The loss of twenty-seven American laborers who were enlisted in Missoula, is announced by their surviving companions.

Supervisor Weigle has given up hope for the safety of Ranger Joseph H. Halm and men on the headwaters of the St. Joe River last Saturday. A relief party has scoured in vain the whole country where Halm was last seen.

Ranger F. A. Ferns, at the head of a still larger party on the St. Joe is safe.

The forest service announces the loss of twenty-seven men on Big creek, and it may be that these are a part of the ninety-five dead reported by their comrades in Spokane today.

It is supposed that the twenty bodies found on Bitter Root creek near Avery are those of settlers.

Danger Now Past.

Twenty-four bodies found on Selser creek are thought to be forest employees. The forestry officers in Wallace is unable to give out the names of the dead, but it is thought that most of the men were newly hired for the fire emergency and their names are not officially recorded.

The loss of life in the first country took place mostly last Saturday and Sunday, when a gale fanned smoldering embers into great fires and drove flames through the mountains with the speed of express trains, giving defeated fire fighters no chance to flee for their lives. The

weather today is calm and cool, and the fire, even where left to itself, is traveling slowly. The attention of the forest service is centered upon the missing men and larger fires are being left to themselves.

None of the towns in Idaho and Montana are in danger and the critical period of the fire is passed.

Montana Fires.

Missoula, Mont., Aug. 25.—Incomplete returns received today from forest district No. 1 show that the number of men unaccounted for is in the neighborhood of one hundred.

This does not include figures from the Couer d'Alene district, for the reason that District Forester Greely has not been able to get in communication with Supervisor Weigle. The figures compiled here include the Halm party, which was composed of only fifteen men, instead of eighty-five, as previously reported. The local officials are confident that Ranger Halm and his party are safe.

No compilation of the dead has yet been made, but based on information received, District Forester Greely says the number will not exceed seventy-five.

The general situation is much improved today. Except in the Couer d'Alene district, attention is being paid to a re-organization of the forces to fight the fires. In the Couer d'Alene territory efforts are still being made to trace missing men and provide relief for everybody. Chief Forester Henry H. Graves arrived here today and spent the afternoon in consultation with the local officials.

While the forests are still burning, all towns and settlements are now thought to be out of danger. The fire fighting force of the forestry service in the entire district is composed of 2,500 men in addition to nine companies of federal troops. The average wage of the fire fighters is estimated at \$5 per day. This makes the daily cost to the forestry bureau \$12,500.

Serious in Oregon.

Portland, Ore., Aug. 25.—The fire situation in Northern Oregon and along the north bank of the Columbia river is virtually unchanged from yesterday. High winds prevail.

The property damage yesterday and today, exclusive of that to timber, will approach a million dollars. Scores of farmers have lost their homes, outbuildings and crops, while the residents of a half dozen or more villages have lost their belongings. Many are destitute.

Suicide for Wife's Sake

New York, Aug. 25.—Because he wished to leave his wife free to marry a better man, Bruno J. Feder, 35 years old, manager of a labor agency killed himself yesterday in the Grand Union Hotel by shooting himself through the head. On the mantelpiece of the room was a photograph of his wife—a pretty girl of 19—so placed that he could see it with his last glance.

Feder was a native of Roumania college bred and conversant with nine languages. His identity and the reason for his deed were made clear by the contents of a letter found in his room.

PRINCIPALS IN MANY DEALS

DISCOVERED THAT OSAGE INDIANS HAVE MADE NUMEROUS FINANCIAL TRANSACTIONS.

M'GUIRE MAKES A DENIAL

A Telegram from Adams Declaring He Didn't Say He Was Interested in Contracts.

Pawhuska, Ok., Aug. 25.—When the committee appointed by the house of representatives to investigate Indian land affairs assembled here today it discovered that the Osage Indians had been made the principals in many financial transactions.

Some of the transactions are to be called to the attention of congress. For 495 acres of land, Steward Chotau, a part-breed Osage, received in actual cash \$372, he testified before the committee.

"On March 20 last," said Chotau, who is 23 years old, "I received a certificate of competency allowing me to manage my own affairs as regards my part of tribal lands."

"Five days later S. Sands got me to sign a deed to 160 acres for which he was to give me \$1,000. He kept the \$1,000 to pay him for some furniture and a buggy I bought from him. Ten days later he called me up and said he wanted to buy 335 acres more."

"In the meantime I had borrowed a small sum of money from him, so he gave me \$372 for the 335 acres and kept the rest. That \$372 was all the cash I ever got for the 495 acres. I never asked how much the property was worth, but left that all to Sands. He knew all about it, so I left it to him."

Mrs. Revard, a half-breed Osage and mother of Chotau, testified she had protested to Washington against the issuance of a certificate of competency to her son, but the certificate was issued and the land sold without her knowledge. She said:

"The case was taken as typical of many others in which the Indians disposed of their allotments, apparently with indifference as to how much they receive."

A firm of attorneys, it was testified today, were to get a contingent fee of \$42,000 for securing to the Osage tribe \$700,000 said to be due them by the government.

Information has been given the committee that many white people are anxious to induce the government to pay off the Indians and settle up their estate. It was held that this would result in the Indians rapidly spending all their wealth and soon become charges of the state.

Representative B. S. McGuire of Oklahoma appeared before the committee to deny that Richard C. Adams of Washington had ever said McGuire was interested in the McMurray contracts. He read a telegram from Adams, who also denied ever making the statement.

Representative Charles Carter previously had said that Adams had said McGuire had favored the contracts.

Woman Held in Lynching Case.

Zanesville, O., Aug. 25.—Mabel McManiway was arrested yesterday and will be held for the Newark authorities in connection with the Etherington lynching July 8. On the night of the lynching a thrill ran through the gathering around the gallows, when a woman, standing on an automobile, shoved through the crowd into the very heart of the throng. Standing on the seat she cried to the leaders: "Pull him a little higher so that I can see."

Tomatoes Cheap. Your order filled for tomatoes where same is for as much or more than one peck. Seventy-five cents per bushel. Phone 275.

8 KILLED; 8 INJURED IN R. R. WRECK

TRAIN BURNS AND SOME CLAIM MANY LOST THEIR LIVES

Montreal Express Crashes Into the Rear End of a Pullman Car.

Durant, Mich., Aug. 25.—Eight are dead, three persons are scalded, mangled and probably fatally injured, three more are missing and five are seriously wounded, as the result of a wreck on the Grand Trunk at Duffield, near here, early Thursday.

The Montreal express from Chicago with nine coaches, stopped for engine repairs and the eastbound passenger No. 4 running late, crashed into the rear of the express, splitting the Pullman.

The wreckage burned and the rescuers insist that 19 were killed outright and probably others incinerated.

One survivor of the badly damaged Pullman, Clinton A. Davis of Montreal, was unable to save his invalid mother and nurse, both of whom burned to death.

Brakeman Graham of Detroit is being held here pending an investigation. He was responsible for the danger signals at the back of his train. Engineer Spencer of No. 4 declares he was warned by only one torpedo, the crash following almost instantly.

Spencer also says the Pullman showed no tail lights.

PLAN RESCUE HOME TO SERVE THREE STATES

Shawnee, Ok., Aug. 25.—A rescue home to serve Oklahoma, Texas and Arkansas is planned by Capt. O. B. Christie of the American Salvation Army, to be supported by the army, and to be under the financial control of the board of directors. Mayor F. B. Stearns, Wallace Estill and Geo. Kerfoot have been asked to serve as members of the board. Labor Day will be designated as a day for the home and all will be given a chance to contribute. Captain and Mrs. Christie will open the home at once. Sixty acres of land are desired for the project.

First Bale of Cotton at Lawton.

Lawton, Ok., Aug. 25.—The first bale of cotton to be brought to Lawton's cotton market this year and the second bale harvested so far in the county during the 1910 season was sold on the Lawton streets today and brought a total price of \$108. The bale was grown by C. L. Maddox, who lives twelve miles southwest of the city, and Chancellor Bros. & Vaughn were the buyers. The proceeds from the cotton amounted to \$70 and the merchants' premium for the first bale to \$38, making a total of \$108 for the bale.

SAME OLD STORY RETOLD

Settlement of Difficulties in Southwest Expected This Week.

Kansas City, Aug. 26.—Both coal mine operators and miners in the southwestern fields believe that the trouble between the two sides will be settled satisfactorily by the last of next week at the latest. Many think an agreement will be reached sooner.

The miners will meet at Pittsburg, Kan., Saturday to vote on the proposition made to their representatives by the operators yesterday. Alexander Howatt, president of the Kansas district, is said to be the only official of the miners' organization who opposes the acceptance of the operators' terms of settlement. The miners themselves are said to look with favor upon an immediate agreement on the plan submitted.

Should the Pittsburg convention approve the plan, the miners' conferees, including President Thomas L. Lewis of the United Mine Workers of America, will come here Monday to confer with the representatives of the coal operators and complete the contract.

By the plan now under consideration, the miners will receive the increase demanded by the Cincinnati convention and the operators are to get concessions regarding the working conditions in the mines.

Mutiny Charged Against Sailors.

Baltimore, Md., Aug. 25.—Charged with mutiny on high seas, five Massachusetts youths were lodged in jail after having been brought 3,000 miles to answer for the alleged crime.

The specific allegation against the men is that on July 6 they dashed the Varilla by mutilating the windlass, rendering it useless making it necessary to put into port for repairs. The men allege that they were brutally treated.

To Sell Cleveland's Birthplace.

Newark, N. J., Aug. 25.—The birthplace of Grover Cleveland at Caldwell, N. J., is to be purchased by democratic leaders of Caldwell and neighboring towns for use as a club house. The property is now the Presbyterian parsonage, but was recently placed on the market by the church trustees. A committee have been appointed to arrange terms of purchase and to raise the necessary funds.

Dressmaking.

I will do dressmaking at my home on East 12th street. Your work solicited. Satisfaction guaranteed. Mrs. J. M. Taylor. Phone 5. 26-11

CEMENT AND GOOD ROADS.

Discussing good roads E. J. Cattell
of Philadelphia, an acknowledged
authority on the subject has the fol-
lowing to say: "Today there runs to
waste nearly 50 per cent of our agri-
cultural producing power, because
the cost of transportation over unde-
veloped roads from points of produc-
tion to points of shipment, equals
twenty-five cents per ton per mile
when it should be only two and a
half cents a ton per mile." He be-
lieves we are on the eve of the
greatest movement for good roads the
world has ever witnessed. One reason
for this is the more urgent de-
mand for them. Another is the im-
mense and cheap production of ce-
ment, which makes culverts and
bridges much less expensive. He
might have added that people even
in every rural community are show-
ing more intelligence and enthusiasm
in the matter. Common sense will
sometimes push far more effectively
than money.—Abilene Reporter.

WHAT DOES THIS MEAN?

Now what can this possibly mean
coming from the republican Musko-
gee Phoenix?
"Now for some excitement—maybe.
Teddy is once more on the wing. Yes,
yesterday he started on his 5,493-mile
trip, to be gone eighteen days. He
will stop in various cities en route,
speaking at Cheyenne, Wyo., the 28th
and at Osafatonic, Kas., the 31st, al-
so at Chicago, Milwaukee, Denver,
Fargo, etc., etc. But will there be
any excitement? We fear not. Teddy
is a tale that is told. Good fellow,
splendid citizen, tremendous reform-
er—while he lasted—but this is a
busy world and even the best songs
get out of tune if sung too long.
Teddy is all right where he is, but
don't let's make a Jim Jeffries out of
him."
Does this mean that the Phoenix
has outgrown Roosevelt, that it has
passed him in its progress towards

higher political ideals? Or does it
mean that the Phoenix so fully be-
longs to the reactionary branch of
the republican party that it tosses
aside Roosevelt with Cummins and
Bristow and Murdock and LaFollette?
But in any event, it takes a pretty
big man and a good sized paper to
say that "Teddy is a tale that is
told," and get away with it, keeping
its reputation for political perspic-
acity.—Shawnee Herald.

STATE FEDERATION

MEETING ENDS

Bartlesville Next Place—A New Con-
stitution Has Been
Adopted.

Chickasha, Okla., Aug. 25.—The
convention of the labor federation ad-
journed at 12:15 today. The session
was devoted to the installation of
state officers recently elected by
referendum next meeting place over
Guthrie by vote. Bartlesville was se-
lected for the twenty-five votes.
Almost the entire day yesterday
was taken up in the adoption of a
new constitution. Under the new con-
stitution the president is given a sal-
ary of \$125 per month and expenses
and is made the state organizer. One
of the clauses proposed for adoption
provided that the unanimous protest
of the locals in the state would be
necessary to unseat a delegate to
the state convention. Had this been
adopted it would have meant the re-
pudiation of the action of this con-
vention in unseating M. E. Bunnell,
delegate from the Chickasha brick-
layers. The clause was defeated af-
ter considerable debate.

Secretary Luther Langston at-
tempted to defeat the clause in the
constitution providing for a certain
date for the state convention. He
declared that the convention was a
political organization whether so re-
cognized or not. He wanted the date
of the convention left in the hands
of the executive committee to be
called at their discretion so proper
action could be taken in political
campaigns, but he was overruled by
vote of the delegates, and a specific
date is fixed for state conventions.

Last night the visiting printers
were given a banquet by the manage-
ment of the Morning Journal. The
convention will end today.

INSURANCE COMPANIES ARE SUFFICIENTLY EXEMPT

Guthrie, Ok., Aug. 25.—The Insur-
ance department is being flooded with
inquiries from insurance companies
licensed to operate in Oklahoma, as
to whether the corporation tax, pro-
vided for by the extraordinary ses-
sion of the second legislature ap-
plies to them.

Various insurance journals have
published notices to the effect that
the insurance companies operating
in Oklahoma are subjecting them-
selves to the penalty of \$100 a day
since Aug. 1 and forfeiture of their
license for their failure to pay the
corporation tax.

Insurance Commissioner Milas
Lasater has answered telegraphic
inquiry from several newspapers to
the effect that the insurance com-
panies are specifically exempt from
the corporation tax provided in
House bill No. 84, which provides for
a license tax upon foreign corpora-
tions of \$1 for each \$1,000 of au-
thorized capital stock and fifty cents
on domestic corporations for each
\$1,000 of capital stock.

Foreign insurance companies oper-
ating in Oklahoma in addition to an-
nual entrance, and other department
fees, pay a two-cent tax on all pre-
miums collected within the state of
Oklahoma, which in the mind of the
legislature, entitled them to exemp-
tion from the corporation tax.

NEW VACCINE CURES CANCER

Dr. P. K. Gilpin of Oakland, Cal.,
Makes Discovery in Philippines.
San Francisco, Cal., Aug. 25.—Can-
cer, the disease which has baffled
medical science for over a hundred
years, may be conquered at last. Dr.
P. K. Gilpin of Oakland, professor
of surgery in the Philippine medical
schools and surgeon in chief of the
Philippine General Hospital at Manila,
believes he has discovered a vaccine
which will stop the ravages of the
dreaded disease.
With this vaccine Dr. Gilpin has
cured twenty cases of cancer in Ma-
nila. In his laboratories there he has
been working for three years on his
discovery, and is now ready to give
to the world the fruit of his labor.
He has prepared an article for pub-
lication in the Journal of Science, a
medical and scientific review publish-
ed by the Bureau of Science of the
United States, in which the details
of the cure will be made public for
the first time. The Journal of Science
will be issued in about a month.

ROOSEVELT FLAYS MOB LAW

SCORES DISHONEST CORPORA-
TIONS AS WELL AS DIS-
HONEST INDIVIDUALS.

TWO ARTICLES IN CREED

A Square Deal for Everybody, Jus-
tice for Every Man, Rich
or Poor.

South Bend, Ind., Aug. 25.—Theodore Roosevelt traveled across Ohio
and Indiana today, greeted every-
where by enthusiastic crowds, to
whom he talked of honesty, respect
and corporations. He expressed his
beliefs on questions which concern
the public in more fashions than he
has done since his return from Africa.

During the day Colonel Roosevelt
made a number of speeches, al-
though he said before he left Oyster
Bay that he did not intend to talk
from the rear platform. The crowds
which greeted him today were larg-
er than those which turned out to
see him during his trip across New
York state, and they were so insis-
tent in their demands to see him and
hear him speak that he responded in
every instance.

The colonel did some plain talk-
ing to the crowds which burst into
the railroad yards at the largest
places, swarmed across the tracks
and tied up traffic on the road. He
talked against dishonest corporations
and the crowds voiced approval. He
condemned dishonest men, and there
were more cheers. He attacked mob
rule and was cheered again.

At Toledo he spoke again on mob
rule, having in mind the street car
strike in Columbus, O., where there
has been rioting. Then he said:

"The great question we have to
face is to shape things so that every
American citizen shall have a fair
chance to earn his living and lead
his life under the best and most
favorable conditions, that he shall
be protected in his rights and pre-
vented from wronging others in turn."

From the time Colonel Roosevelt
reached Buffalo at 6:20 o'clock this
morning, until after he had made his
last speech for the day, he was kept
on the move. When he was not mak-
ing speeches or shaking hands he
was talking with visitors, dozen of
whom rode for a time on his car. He
said he was not talking politics and
refused to say a word on the New
York state situation. Even the news
that delegates from Orleans county
to the republican state convention
had been instructed to vote for him
for temporary chairman of the con-
vention, brought forth no comment.
The colonel merely smiled.

His first speech of the day was at
the breakfast given him in Buffalo
by the Elliott club. At Dunkirk, N.
Y., he talked to the railroad men.
The crowds at Erie, Pa.; Conneaut,
Ohio; Ashtabula, Cleveland, Elyria,
and Toledo, in Ohio, and at Kendall-
ville, Elkhart and South Bend, in
Indiana, all heard him speak.

Congressman Bates of Ohio, and
Thomas of Pennsylvania, and Judge
Wannamaker of Akron, Ohio, were
among the visitors on the train.

Masked Men Rob Depot.

Nelogony, Okla., Aug. 25.—Shortly
after the Katy passenger train left
this place yesterday morning, and
while the depot master and his as-
sistant were working at their desks
two masked men appeared at the
window and thrusting two murder-
ous looking guns through the open-
ing, demanded that the railroad men
throw up their hands. The demand
was immediately complied with and
then the men were compelled to open
the door and come outside where
they were made to stand aside while
one of the robbers entered the de-
pot and rifled the cash drawer of
\$75.

The robbers demanded that the
safe be opened, but this was impos-
sible as neither of the road employes
had the combination. After securing
the \$75 the two men took to the
woods. As they backed away they
kept the two men covered with their
guns until they had passed from
sight. Word was immediately sent up
and down the line and assistance
was asked to hunt the thieves.

The station man describes the men
as being, one over six feet tall and
strongly built, while the other was
about five feet eight and somewhat
slight. Both wore masks.

True Economy

In buying something for 5c
or 10c that will answer the
same purpose as the same ar-
ticle at double or more than
double the price, its easy to
practice economy here.

Teaspoons, only 10c a set,
and we believe there are no bet-
ter spoons made under 25c a set
so far as durability is concerned
Tablespoons of same, 15c a
set.

Knives and forks, best goods
for the price, from 45c to \$1.45
per set.

Come to us for lamps, lamp
chimneys, lamp burners, lamp
wicks, etc.

Soaps, we have a line of fine
toilet soaps.

Castile Soap, with wash rag 5c
Buttermilk and Llano Oil com-
plexion soap, 3 cakes for 20c.

Grandpa's Wonder Soap, 5 oz.
cake 5c.

Cocoa Castile, long bars, 5c.

Lenox and Swiss Laundry
Soap, 3 cakes, 10c.

More genuine bargains bought
right, and sold right. Glassware,
Queensware, Enamelware, fine
China, Notions, etc.

Yes, we handle a full line of
state adopted school books.

School Supplies.

We respectfully solicit your
business.

The Nickel Store and China Hall

S. M. SHAW, PROP.

INDIANS HAVE ALL-NIGHT DANCES

Many White People Are Attracted to
the Place by Daily Games of
Real Indian Baseball.

Lawton, Ok., Aug. 25.—Grotesquely
beautiful and with weird music, the
dances being put on by the five dif-
ferent tribes of Indians now assem-
bled at Fuller's ranch, two miles
north of Richards, are attracting
large crowds of white people from
various portions of this section of
the state. The Indians taking part
in this affair are the Creeks, Caddo,
Kiowas, Comanches and Apache.

One of the most interesting fea-
tures to the white people is the game
of "baseball" played by the Creek
Indians during the gathering. It is gen-
uinely an Indian game, very differ-
ent from the modern American game
and games are played daily. It is a
combination of golf, baseball, football
and shinny. Each player is equipped
with two large sticks, resembling a
golf stick or shinny club, and so
shaped that the ball, which resembles
a baseball can be picked up and
thrown great distances. The players
endeavor to throw the ball over goals
which are constructed the same as
football goals.

Language of Monkeys.

New York, Aug. 25.—Prof. Richard
L. Garner, who believes that mon-
keys have an articulate language, re-
turned last night from four years
study of chimpanzees and gorillas in
the depth of the African wilderness.

"Much that I have said," cautioned
the professor, "has been misquoted,
therefore, please be conservative. I
have tabulated twelve or fourteen
sounds which I believe to be words
used by monkeys in communicating
with one another and I believe they
have in all twenty or more such
words. Nine of these I believe I
know. I have taught one monkey the
French words for fire feu. When I
would light a match she would call
feu as soon as the flame showed,
but would remain silent when a
burnt match was shown. A hot cinder
would bring the word feu and so
would a camp fire."

Hold Him Him as Swindler.

Paris, Aug. 25.—Oswin Kerryri
King, aged 24 years, of Abilene, Tex.,
was arrested here today at the re-
quest of the Swiss authorities on a
charge of swindling by passing forged
checks. King denies his guilt. He
says he is an expert skater and has
acted as instructor to the queen of
Italy, and that he also has worked as
an artist for an American newspaper.

Farm Lands Wanted.

We have calls every few days for
farm land. If yours is for sale, list it
with us and we will interest some
one in its purchase. Commission rea-
sonable. Weaver Agency, News Office.

State Building Warrants.

Guthrie, Ok., Aug. 25.—Draft was
made on various state banks today
by the state school land department
for \$80,000 in common school funds,
which are being withdrawn for the
purpose of reinvesting them in pub-
lic building warrants. Warrants
amounting to \$25,000 have been sold
elsewhere, making a total of over
\$100,000 in the hands of State Treas-
urer Menefee to be used for paying
outstanding claims against the pub-
lic building fund.

The public building warrants
which will be purchased with the
permanent school funds are a part
of the \$750,000 issue which failed to
be sold when placed on the market
some months ago. As a result work
on some state buildings was held up
but the new arrangement by which
the state buys its own paper will
cause an immediate resumption of
operations.

"Let Me Alone," Says Lillis.

New York, Aug. 25.—Jere Lillis,
who was bound and beaten by Jack
Cudahay at his home in Kansas City
last winter, declared at his hotel
Wednesday evening that he would
not marry Mrs. Cudahay, now that
she has secured a divorce on the
grounds of incompatibility. He said:
"We have not corresponded. I have
no intention of marrying anyone.
Moreover, I could not marry Mrs.
Cudahay, if I wanted to. There are
religious obstacles in the way. I want
to be left alone."

NOTICE

WHEREAS, on the 5th day of Aug-
ust, 1910 the Board of Appraisers
appointed by the Mayor and City
Council of the City of Ada, Oklahoma
to appraise and apportion the bene-
fits of the lots, and tracts of lands
by reason of the grading, paving, gut-
tering, curbing, draining and other-
wise improving of a portion of Main
street from the west side of the right-
of-way of the St. Louis & San Fran-
cisco rail road to the east line of the
right-of-way of the Missouri, Kansas
& Texas rail road; Townsend avenue
from the north line of Twelfth (12th)
street to the North side of the right-
of-way of the St. Louis & San Fran-
cisco rail road and Broadway Ave.
from the North line of Twelfth (12th)
Street to the north side of the right-
of-way of the Saint Louis & San
Francisco Rail road, designated as
Improvement District No. 2, have filed
their report with the City Clerk of
the City of Ada, Oklahoma.

NOW THEREFORE, by order of
the Mayor and the City Council of
the said City of Ada, Oklahoma, un-
der the date of the 22nd day of Aug-
ust, 1910, notice is hereby given that
at 3 o'clock P. M. September 6th, 1910,
in the Council Chambers of the City
Hall in the City of Ada, Oklahoma,
the Mayor and City Council of the
said City of Ada, Oklahoma, will hold
a special session for the purpose of
hearing any complaints or objections
that may be made concerning the ap-
praisal and apportionment as to
any of the lots and tracts of land
mentioned in the report of said Board
of Appraisers; and that on said last
mentioned date the Mayor and City
Council of the said City of Ada, Okla-
homa will review said appraisal, make
any necessary corrections, raise
or lower the same as they may deem
just and shall then proceed in the
manner required by law to confirm
the same as revised, or corrected by
them, and proceed to levy assessments
in conformity thereto.

Given under my hand as City Clerk
of the City of Ada, Oklahoma, this
the 24th day of August, 1910.

W. B. JONES, City Clerk.
(First published Aug. 24, 1910.—5td)

THE Ada National Bank

From the day of its opening,
July 23, 1900, down to the pres-
ent time the business of this
Bank has gone forward with-
out interruption.

Has accommodated more far-
mers than any Bank in the
county.

Has assisted more local en-
terprises than any other Bank
in the City.

We want your business if we
merit it.

Two S. C. R. I. Reds each \$1.00.
One White Wyandotte, 75 cents.
Twenty Brown Leghorn hens, each 50c.
Fifteen Brown Leghorn pullets, 75c.
CARLTON WEAVER.

First Bale for Davis.

Davis, Okla., Aug. 25.—The first bale of cotton for the year 1910 was sold on the streets of Davis today. The cotton was raised by Peter Harmon, west of town. The price paid was 14 1-2 cents a pound. The bale weighed 540 pounds. The dry wind for the last eight days has damaged cotton seriously, causing it to throw off at least one-fourth of its forms and causing it to open prematurely.

TIPS On Choosing a Bank

Before lining up with a bank you should investigate several points in connection with it. In the first place ascertain whether or not the bank is prospering and developing along with the other lines of business of the community. If a bank's business isn't prospering something is wrong. In the second place are the officers and directors of the bank good, safe business men who deal squarely with the people? Watch out for a bank operated by tricksters or sharpers. In the third place do the directors really direct or are they merely figure heads? Look out for a bank whose directors know little or nothing about its business.

We want you to investigate this institution. We know its business is prospering and increasing right along. You know its officers and directors and we believe they are safe, honorable, business men. The directors of this bank say what shall and shall not be done. They pass upon the loans regularly and their instructions are carried out to the letter. This bank is what they make it—A Strong, Prospering, Conservative institution.

The First National Bank

A Genuine Pile Cure vs. Injurious Dope

E-RU-SA is the ONLY NON-NARCOTIC, NON-POISONOUS, and lawful pile cure. All scientific and medical authorities declare EVERY ingredient in E-RU-SA PILE REMEDY suitable for piles; same authorities condemn the INJURIOUS narcotic and other poisonous pile medicines, and Supreme Courts uphold these authorities. E-RU-SA CURES PILES OR \$50 PAID. ALL MODERN druggists of highest standing in Ada, Okla., sell E-RU-SA, viz: RAMSEY DRUG CO., GWIN MAYS CO., MAD-ON DRUG CO., ADA DRUG CO. and CRESCENT DRUG STORE.

Atoka, Okla., Aug. 24.

Mr. Otis B. Weaver:

Dear Sir—I understand you had a good write up of the world famous badger fight in your paper. I would like to get a couple of copies of it if you have it. I must say that I had more fun while in Ada than I have had in a long time and I will remember it for many long days. I will be through tomorrow evening on the 5 o'clock Katy if you happen to be down would like to get the papers. Yours in fun,

L. H. BARTLETT,
"Hippo W. Powder."

American Man The Best.

New York, Aug. 25.—"I prefer the American type of man to any other in the world," said Senorita Rosario Villaverde, youngest daughter of the late Marquis de Campo Allegre, Count Villaverde of Spain, the king's councillor.

The inclination of this young protégée of Mrs. Frank Leslie toward the American man is not because of his appearance, his regular features, his excellent build and his courteous manner, but because of his achievements.

"All one has to do on arriving here," she comments, "is to observe the immense buildings, the labyrinthine department stores, the traffic, the glare, the noise, the movement—man hustling and bustling in every sphere of life and labor—to realize the true value of American men."

QUICK COUNSHIP, TO JAIL TO WEDDING ALTAR

Sapulpa, Ok., Aug. 25.—As a result of fast and furious courting S. Jerwick, a Hebrew and Mary Crossan, a Gentile, from Dallas, were married here at a late hour, Wednesday, the bridegroom being led from jail to take his part in the ceremony.

He met his bride in a Dallas park, Sunday night. A few hours later they were engaged and had decided to elope. They came here and his arrest, at request of his father, followed. The latter charged his son with the theft of a lot of plumes from his store the receipts from the sale of which, he said, furnished the means of travel.

The pretty girl persuaded the court officials to allow her to marry him and the judge assented and tied the knot.

IF SICK--WHY PAY

Unless Health First Returns.

Here is what should and can be done! Now you would not willingly pay for food that was worthless—would you? Then why pay for medicine until that medicine first proves to you its actual worth? Positively knowing what Dr. Shoop's Restorative can do for the sick, I say to all "don't pay unless health first returns." And I back my Restorative with a signed and sealed 30 day "No help, No pay" contract.

I positively pledge to the sick everywhere that "Dr. Shoop's Restorative is absolutely free if it fails." Let others do the same—or else pass their prescriptions by.

If you need more strength, more vitality, more vigor or more vim, use my Restorative a few days and note the immediate improvement. When the Stomach, Heart, or Kidneys go wrong, then test Dr. Shoop's Restorative. I do not close the Stomach nor stimulate the Heart or Kidneys, for that is wrong. Years ago I cast away that mistaken idea in medicine. The books below will best tell you how I am succeeding.

These books also tell of a tiny hidden "inside nerve," no larger than a silken thread. They tell how that nerve, until it fails, actually gives to the Heart its power, its tone, its never-ending action or impulse.

These books will open up new and helpful ideas to those who are not well. They tell how the Stomach and Kidneys each have their "inside" or power nerves. They tell how the Restorative was especially made to reach and revitalize these weak or failing inside nerves. All of these facts tell why I am able to say, "It is free if it fails."

This is why I say "Take no chance on a medicine whose maker dare not back it just as I do by this remarkable offer."

So write me today for the order. I have appointed honest and responsible druggists in nearly every community to issue my medicines to the sick.

But write me first for the order. All druggists sell Dr. Shoop's Restorative, but all are not authorized to give the 30 day test.

So drop me a line please—and thus save disappointment and delays. Tell me also which book you need.

A postal will do. Besides, you are free to consult me as you would your home physician. My advice and the book below are yours—and without cost.

Perhaps a word or two from me will clear up some serious ailment. Have helped thousands upon thousands by my private prescription or personal advice plan. My best effort is surely yours simple request. So write now.

You have it fresh in mind, for tomorrow never comes. Dr. Shoop, Box 12, Racine, Wis.

Gaynor Learns About Shooting.

New York, Aug. 25.—Mayor Gaynor was given tonight for the first time, the full details of the attempt to kill him. The mayor showed great interest and asked many questions. No date for the mayor's discharge from St. Mary's hospital, Hoboken, has been fixed, but Sunday has been spoken of.

CURIOSITIES OF LIGHTNING

Origin of the Electrification Manifested in a Thunder Storm is Still Unknown.

A young girl in charge of two children, sheltering under a tree on Chishurst Common, says the London Sphere, was struck by lightning and killed—one of those dreadful instances of the sort of personal touch with which lightning seems to select its victim, for though one child is reported to have been thrown down, neither, apparently, was injured. There are many instances of course, of this strange selection, due in most cases, probably, to some accident of clothing. There is a well-remembered case which happened some years ago at Cambridge, when three young men were walking across an open space of ground, and the middle one of the three was struck dead, while the others were untouched. The inquest showed that the young man who was killed had nails in his boots, whereas the others were wearing boating shoes.

The phenomena of thunderstorms have been the subject of much study in America. But if thunderstorms can be classified, they are still not thoroughly understood. We do not yet know what are the exact conditions which lead to a discharge of electricity in the form of a lightning-flash from cloud to cloud or from cloud to earth. We cannot reproduce thunder and lightning in a laboratory. We do not know what is the origin of the electrification manifested in a storm.

WAS A FIEND FOR FRESH AIR

Transatlantic Passenger Who Insisted Upon Having an Open Porthole Over the Dining Table.

A man who formerly was a waiter on a big transatlantic liner told this story the other day:

"On a certain trip over I had at my table an irascible old gentleman who was a fresh air fiend. No matter what the weather, he always insisted on having the porthole over the table open. It was no use to argue with him, but one day, when the seas were very high and the ship pitching and rolling, I ventured to remonstrate. He was up in arms in a minute. 'You are paid to obey order!' he said tartly. 'Open that port!' I did. The soup course was served in safety. Then I asked him if he would have fish. 'Of course I will,' he snapped. 'And I'll have it in a hurry. Don't keep me waiting all day.'"

"Just at that moment an unusually big sea rolled by. That is, part of it did. A goodly portion came through the porthole, soaking the old man and depositing on the table in front of him a live fish. No waiter on board of our ship had ever served an order so quickly before. But I didn't get any credit for it. The queer thing about that story," he added, "is that it isn't a fish story at all. I never told it yet to any one who believed it. But it is absolutely true."

Dr. Gallor, of the firm of Drs. Wilson and Gallor, eye, ear, nose and throat specialists of Shawnee, will be in Ada at Hotel Harris the 2nd and 4th Mondays in each month. Glasses fitted. 23-10f-wt.

STAY AWAY FROM THIS CLUB

If You Are Not Glib of Tongue You'll Find the Initiation Expensive.

"I have just been initiated into the club with the longest name of any club in the world," said the Staten Island man. "And I might remark incidentally that the initiation cost me 16 quarts of champagne."

The name of this wonderful organization, omitting the commas, is the High Ball Bend Booze Glee Yacht Chemical Engine Cornerstone Pousse Cafe Brook Trout and Colonel Garcia Club of Staten Island. Now say it quickly just from memory. It is really quite easy—only needs a little practice.

"You can't, eh? Well, take my advice and stay away from the gang that hangs out in the vicinity of High Ball Bend, which is that portion of Richmond terrace immediately adjacent to the St. George ferry."

"The gam is to get a fellow into the clutches of that crowd, fire about six drinks into him, spring the name of the club on him, and ask him if he wants to join. Just about that time he is perhaps willing to join anything, and he says yes."

"The only entrance fee is to be able to repeat from memory the complicated name of the club. If you fall down it costs you wine for the crowd. And there are some other rules and penalties."

"The object of the organization? No, it isn't exactly to further the municipal interests of the Borough of Richmond. It is simply to initiate new members."—New York Times.

WHALE STRANGLES ITSELF

Meets Death as Result of Colliding With Wire Rope While Feeding.

From Seattle comes a remarkable story, brought into port by a cable repair ship. This ship had been sent north along the coast of Alaska to repair the cable, because during the last winter difficulty had been experienced in sending and receiving messages.

The vessel picked up the cable connecting Valdez and Sitka a few miles off Cook inlet not far from Sitka. The crew never had such a time hauling a cable on board as they did that day on the Alaska coast. Finally the cause of the great weight was found. Some time during the winter a whale, feeding on the bottom of the ocean with wide-open mouth, collided with the wire rope.

Unable to shake the big wire from the mass of whalebone in its jaws, the big fish "turned turtle," rolled over once, turned round, rolled again and died.

In these few moments the fish proved himself his own hangman, for the cable was twisted tighter about the head of the whale than any mortal could have twisted it with the most powerful machinery.

The whale drowned and the carcass was devoured on the bottom of the ocean by other fish. The crew of the cable repair ship hauled up an immense load of whalebone, and found a great twist in the government cable that had been the cause of the unusual difficulty in sending messages to and from either end of the rope.

Bible and Obsolete Words.

The tercentenary edition of the English authorized edition of the Bible, over which there was a conference of learned men in Princeton last week, is to have some changes. Where the meaning of words has changed, the text is to be changed so as not to be misleading; where the old version is obscure it will be changed in the interest of clearness; where it is infelicitous in choice of word that will be set right, and for words that have become obsolete others will be substituted. Damage could be done on all of these lines, but happily the work is in the hands of men of taste and judgment, who will make no change for the mere sake of change.

As to obsolete words, it may be said that no word that is in the Bible can become obsolete. The Bible words live and undoubtedly the English Bible has done a service to the English language in keeping some good words in use that might otherwise have passed out of it. "Let" in the sense of hinder is said to be condemned by the revisers, and perhaps rightly, but it was a good old word in that use of it.—Harper's Weekly.

Tea on Wheels.

The greatest novelty of the Fete de Neuilly, which is in full swing now, and which stretches from the gates of Paris down to the Seine, is a novelty in roundabouts. This year, instead of whizzing around on pigs, on camels, rabbits, cows or motor cars—the mere horse has long been out of date on the Paris roundabouts.—Neuilly Fair provides a turning drawing room, in which tea is served in elegant surroundings. Tea on a circular tray big enough to hold the drinker and the room in which it is drunk is certainly something rather new.—Paris correspondent London Express.

Entire School Lent Abroad.

Not often is the American school with all its students transferred to another country. But such was done with the Baltimore Forest school, numbering 45 students, after George W. Van derbilt had decided that he no longer cared to have it occupy his estate in North Carolina. In November last the school was taken to Germany for the winter.

A PERPLEXING PROBLEM.

I found the great inventor standing by his work bench. His massive brow was crinkled and gnarled and told me he was concentrating his wonderful thought upon some mystifying problem. Before I could arouse him from his state of profound meditation, I found it necessary to drop a sledge hammer on the floor and to yell at him in my loudest tone. But when he looked up and recognized me his absorbed manner changed instantly and he greeted me with most refreshing affability.

I asked him if he were still worrying over his wireless telegraphic invention.

"Oh, my no!" he answered me. "I completed that and got it off my mind a week ago. The wireless device I am now trying to evolve is infinitely more perplexing."

I asked him what his intended device was.

"A wireless fly screen," he told me.

Professional Enterprise.

Ashley—I hear that Yanker, the young dentist, has bought an automobile. It's certainly a mystery to me how he gets all the money he spends. I never see many people go into his office.

Seymour—No; but those that do go in have to pay big prices; all the laughing gas they take goes through a special meter, and they are charged accordingly.

A Miracle.

"Do you believe the biblical stories about the miracles?"

"Sure. Why shouldn't I? If there are miracles now why may there not have been miracles then?"

"But are there miracles now?"

"There was one this morning. I wanted to catch a train, and no coal wagon driver insisted on staying in the track, thus delaying the car I was on."

HIS FUTURE.

Charley Busted—What allowance do you think your father ought to make us when we are married?

Miss Bilyuns—Well, if he makes allowance for your faults, I think he will be doing pretty good.

It Does Seem So.

Alas and alack,
The more a man tries,
The more his life seems to be
A tissue of lies!

The Only Sure Way.

Hamilton (inspecting Brown's new residence)—How do you manage to keep all the rooms heated so comfortably?

Brown—I found out from the heater man what sized furnace would do the job; then I put in one three sizes larger.

The Difference.

"Do you know, I saw a regular gang shoplifting the other day, and nobody was attempting to interfere with them."

"How was that?"

"I suppose it was owing to the fact that they were shoplifting with jack screws under the shop."

Her Popularity.

Ethel—I wonder why Pauline insisted upon having three diamonds in her engagement ring from Mr. Johnson?

Esther—She probably wanted people to be reminded that Mr. Johnson was her third fiance.

His Specialty.

"The idea of that piano manufacturer pleading the cause of infant industries! Why, his business is a well-established one."

"I know, but it is something of an infant industry, isn't it, to manufacture baby grinds?"

Drawing the Line.

Dick—Dearest, I will follow you to the end of the earth.

Drusilla—No, you won't, either. That is the north pole, and you are not going to get me mixed up in any of these foolish explorers' controversies."

It Makes a Difference.

"I hate my relatives!"

"Oh, you awful thing! Why, I love mine!"

"But I have a hundred."

"Poor girl! I only have a brother-in-law, and I haven't met him yet."

Young America's Query.

"It will cost him a pretty penny."

"What do you mean by a 'pretty penny,' pa? A Lincoln penny?"

Couldn't Help It.

"I hear Jorkins is a hard drinker."

"Well, he has to be. He can't get anything to drink but hard water."
